

## IndustrySafe – Hazard Public Web Form

### Pricing Info

Web Based Service  
 \$2,520 per Year, plus  
 \$480 a User per Year for  
 IndustrySafe Core\*

Discounts after 10 users

\*Core includes incidents, corrective actions, inspections, hazards, and training

The Hazard Public Web Form enables organizations to have all stakeholders report hazards from any location. Stakeholders simply go to the web to report the hazard. No login, username or password is required. The hazard data is automatically transferred to IndustrySafe, and IndustrySafe users are automatically notified by email of the hazard.

### Key Hazard Public Web Form Features

Easy to Use Public Web Form	Enter hazard data quickly and easily in our Hazard Public Web Form
Accessible Form	Hazard Public Web Form is accessible to all stakeholders (employees, contractors, visitors etc.) by an IndustrySafe provided url. No login or username or password necessary
