## IndustrySafe Software allows you to:

- Reduce incident and claim costs
- Decrease claims, loss payments and lost days
- Improve the safety of your organization
- Complete required regulatory reports
- Prevent regulatory fines
- Reduce insurance premiums & property/equipment damage

## Easy to Use

**IndustrySafe** is an easy to use web-based application that allows for notifying, recording, tracking, and analyzing all safety information. Our software enables employees to enter incident and injury information directly via a simple web-based interface.

## Excellent Customer Support

We offer excellent customer support services, including implementation assistance, configuration of our software, on site (and web-based) training, and real time maintenance and support.

## Robust Technology

Our software utilizes the latest web-based technology and is scalable to meet the needs of small or large organizations. **IndustrySafe's** open architecture allows for integration with other software.

## Who is TRA?

Founded in 1990, TRA provides safety management software to clients in both the public and private sectors. Our clients are global leaders in manufacturing, transport, construction & engineering, energy, and government. TRA's mission is to provide the most user friendly and cost effective environmental, health and safety software for its clients. Please visit us at [www.industrysafe.com](http://www.industrysafe.com).

# Features of IndustrySafe
