

CLAIMS

Record, track, and manage claims

BENEFITS FOR THE ENTIRE ORGANIZATION

Executives

Provides a comprehensive view of claim activity across your organization.

Claims Managers

Easily generate claims logs and conduct comprehensive claims reporting.

Supervisors and Employees

Automatically receive notifications when claims are initiated.

With IndustrySafe's Claims Module, organizations can create various types of claims including worker's compensation, property damage, and auto claims.

Claims Managers can easily enter notes throughout the claim life cycle, track payments, submit claim information to third party administrators and insurers from IndustrySafe, and much more.

CLAIMS MODULE FEATURES

Reports and Analysis

Build reports to determine which incidents and incident types result in claims, which claims incur the highest costs, and much more.

Security Controls

Only applicable individuals are able to view sensitive claims and employee health data.

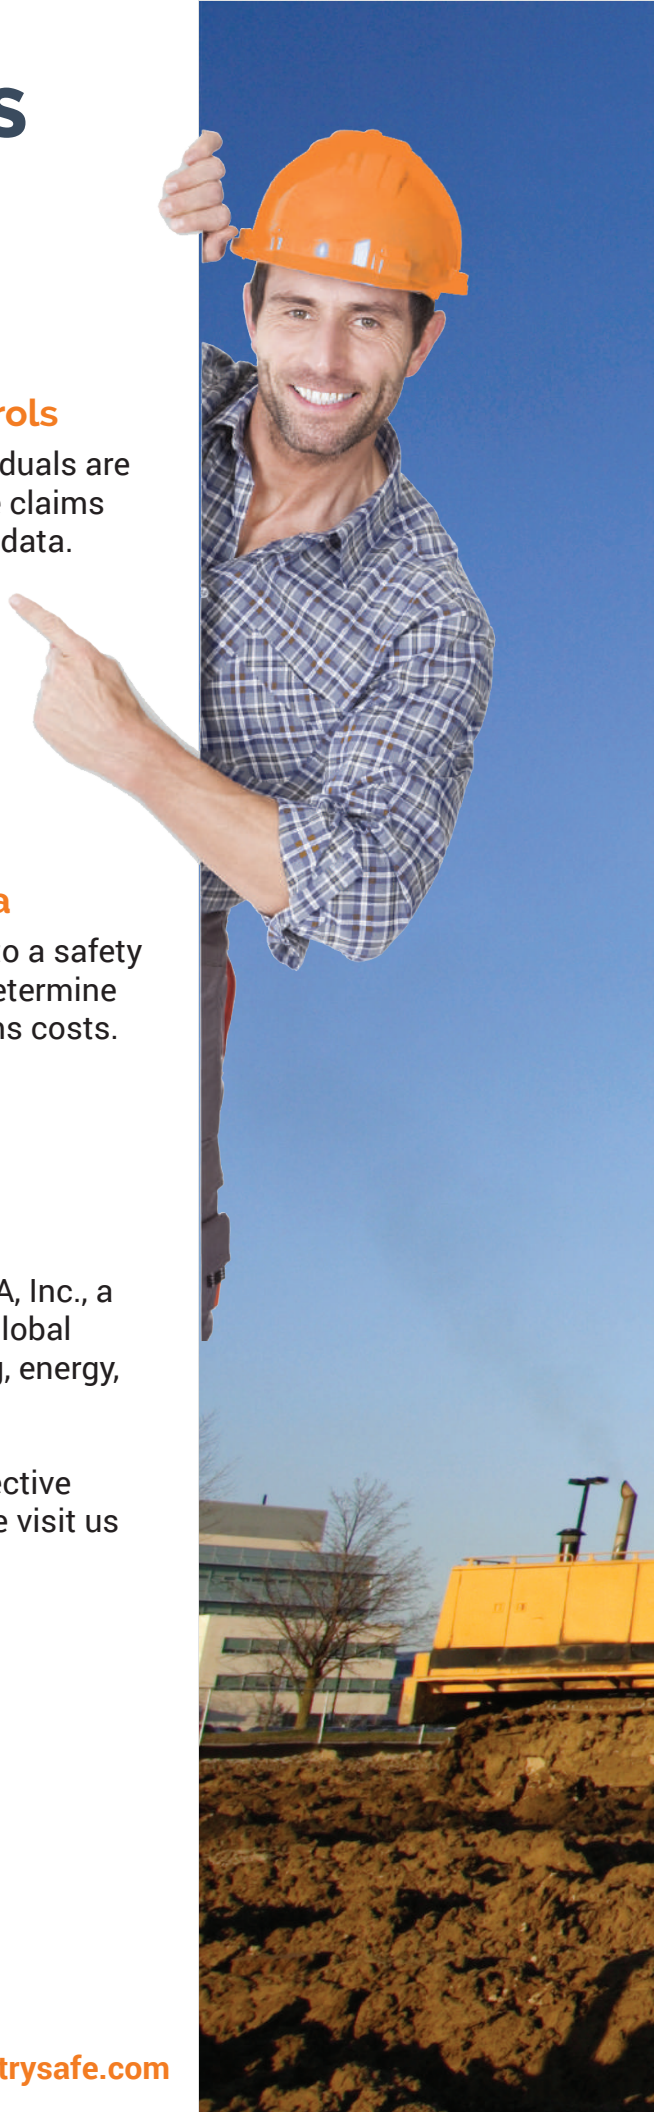

State Specific Forms

For Worker's Compensation claims, IndustrySafe contains first report of injury forms for all applicable states.

Linked Data

Link multiple claims to a safety incident and easily determine both safety and claims costs.
