

# CORRECTIVE ACTIONS

Record and track safety action items

## BENEFITS FOR THE ENTIRE ORGANIZATION

### Executives

Provides a comprehensive view of follow up activities across your organization.

In order to improve safety, organizations need to monitor and track appropriate follow up tasks associated with safety activities.

### Safety Managers

Tracks the assignment and status of safety action items.

With IndustrySafe's Corrective Actions Module, companies can compare safety and health indicators across modules, checking to see how (overdue) corrective actions may be affecting overall health and safety compliance.

### Supervisors and Employees

Automatically notifies responsible parties of open, overdue, and closed corrective actions.

# CORRECTIVE ACTIONS MODULE FEATURES

## Reports and Analysis

Drill down to view overdue corrective actions by supervisor, department, area and more.

## Linked Data

Link corrective actions to other modules in IndustrySafe, including Incidents and Hazards.

## Autofill Key Information

For linked forms, a large amount of data will autofill from the parent record, saving time with data entry.

## Notifications

Automatically notify responsible parties of open, overdue and closed corrective actions.
