

# HAZARDS

Record and track safety hazards

## BENEFITS FOR THE ENTIRE ORGANIZATION

### Executives

Provides a comprehensive view of hazard activity across your organization.

IndustrySafe's Hazards Module enables organizations to identify, analyze and remediate hazardous conditions.

### Safety Managers

Automatically receive notifications if Hazards not resolved by estimated due dates.

Safety professionals can conduct hazard analyses using IndustrySafe's customizable risk matrix.

### Supervisors and Employees

Automatically notifies users when hazards are created or closed.

Companies can also compare safety and health indicators across modules, checking to see how unresolved hazards may be affecting overall health and safety compliance.

# HAZARD MODULE FEATURES

## Reports and Analysis

Easily build reports to view hazards by source, department, risk level, and much more.

## Linked Data

Link hazards to other modules in IndustrySafe, including Incidents and Inspections.

## Autofill Key Information

For linked hazards, a large amount of data will autofill from the parent record, saving time with data entry.

## Notifications

Automatically alert employees and supervisors of new and closed hazards.
