

INCIDENTS

Incident management
made easy

BENEFITS FOR THE ENTIRE ORGANIZATION

Executives

Provides a comprehensive view of incident activity across your organization.

Safety Managers

Allows safety managers to build robust reports to dig deeper into incident data.

Supervisors and Employees

Automatically notifies supervisors and employees of incidents.

IndustrySafe's Incidents Module enables organizations to record, track, and analyze a variety of incidents, including near misses, vehicle incidents, employee and non-employee injuries, environmental, and security incidents.

Users can also perform root cause analysis and generate accurate regulatory reports, including OSHA 300, 300A, and 301 logs, and DOT Vehicle Accident Registers.

INCIDENTS MODULE FEATURES

Reports and Analysis

Maintain OSHA compliance by easily generating OSHA 301, 300, and 301a logs with IndustrySafe.

Linked Data

Connect claims, corrective actions, and attachments to your incidents.

Key Safety Metrics

Automatically calculates key safety metrics such as Total Case Incident Rates (TCIR) and Days Away Restricted Transfer Rates (DART).

Asset Tracking

Track assets that have been involved in incidents to assess their safety performance.

OUR TEAM
