

INCIDENTS PUBLIC WEB FORM

Smart and Easy Incident Reporting

BENEFITS FOR THE ENTIRE ORGANIZATION

Executives

Provides a comprehensive means of incident reporting across your organization.

IndustrySafe's Incident Public Web Form can be made accessible to all of your stakeholders via a simple web link. No login, username or password is required.

Safety Managers

Incident data is automatically transferred into IndustrySafe for more detailed analysis.

IndustrySafe System Administrators can determine which questions to display on the form, so that your workforce can report detailed incident investigation responses or a simple first notice of incident, depending on the needs of your organization.

Supervisors and Employees

Enables stakeholders to record incidents without an IndustrySafe user account.

INCIDENTS PUBLIC WEB FORM FEATURES

Reports and Analysis

Track and analyze incident data and generate OSHA 300, 300a, and 301 logs in conjunction with IndustrySafe's Incidents module.

Notifications

Users automatically receive email notifications of reported incidents.

Automatic Data Transfer

Once an incident is reported, data is automatically transferred into IndustrySafe for detailed analysis.

Configurable Forms

System administrators can easily determine which questions and required fields will display on the form.

OUR TEAM
