

# TRAINING

Record, track, and analyze training activities

## BENEFITS FOR THE ENTIRE ORGANIZATION

### Executives

Provides a comprehensive view of training activity across your organization.

IndustrySafe Safety Software's Training module was designed to help you record and manage your organization's training data.

### Safety Managers

Tracks vital metrics such as course pass rates, expired training, and attendance rates.

With the Training module, safety professionals can easily schedule classes and enroll groups of employees into training, can make batch updates to record class results, and much more.

### Supervisors and Employees

Helps prevent employees from falling behind on training tasks.

Automatic e-mail alerts will also notify employees of upcoming classes and required re-training.

# TRAINING MODULE FEATURES

## Reports and Analysis

Easily build class rosters, create reports to track OSHA required training, and more.

## Training Dashboards

View pre-built dashboard panels to visualize and track key training safety measures.

## Seamless Integrations

Integrates with existing HR Systems to ensure employee information is updated.

## Notifications

Automatically alert employees and supervisors about scheduled, upcoming, or overdue training.

## OUR TEAM

IndustrySafe Safety Management Software is developed by TRA, Inc., a Philadelphia based company founded in 1990. Our clients are global leaders in manufacturing, transport, construction & engineering, energy, and government.
